

Science Homeworks

Each group in Science follows the Units in a different order. For this reason the homeworks are written in Units and take about 6 weeks to complete. Pupils will be told which Units they are studying at the beginning of the first lesson.

Unit Codes/Titles: 7K Forces and their effects
7L The Solar System and Beyond

- (1) Research about the life of Isaac Newton and some of his ideas and how they apply today.
- (2) Research about Space flight, how it began and how it has affected our lives.
- (3) <http://springboard.taecanet.com/student> Unit K
- (4) <http://springboard.taecanet.com/student> Unit L
- (5) Questions/Worksheet (A) – Answer the questions about “Floating and Sinking” on Ships and Submarines.
- (6) Question/Worksheet (B) – Observe the Phases of the Moon over every evening over a whole month. You could also find out about High Tides and the Moon?
- (7) Revision for end of Unit test.
